ABOUT ME

A highly motivated front-end developer and graphic designer with a BSc in ICT, majoring in Software Engineering. Skilled in designing user interfaces, developing websites, and working with databases. Strong ability to craft responsive and visually appealing web applications, with extensive experience in government projects and freelance graphic design. Known for delivering clean, efficient code and creative designs. I excel in front-end development but have experience across full-stack development as well. Passionate about creating user-friendly digital solutions.
